

URBANIA

Be *inspired!*

PROUDLY  
MADE IN  
*Canada* 

## THE URBANIA HAS REVOLUTIONIZED THE SPA MARKET FOR SEVERAL YEARS ALREADY.

Inspired by the latest trends, and with superior massage efficiency, it's an essential added-value spa. The Urbania presents a modern and unique design with additional features that the most discerning consumers are looking for in a spa: a cascading waterfall, LED lighting, stainless steel jets, and much more.

The seats of the Urbania are equipped with two (2) captain's chairs, a triple seat to relax on, and several levels of depth for each bench or chair. What's more, the variable depths of seating allow total body immersion in the water.

The Urbania is a 120V quick-connect convertible model. It can simply be plugged into a dedicated 15 amp outlet or converted to 240V on 40 amps.

The Urbania is the ideal spa for those looking not only for comfort but also for quality hydrotherapy. Hydrotherapy is one of the best things you can do for your body; it increases and promotes blood circulation, releases endorphins, helps reduce respiratory infections, and even reduces arthritis. It also helps to substantially reduce blood pressure and improve sleep.

*The Urbania spa: partner to your comfort, accessible and affordable ... a must for your well-being.*
