

PÜR SPAS

Manufactured by:

LUMI-O INNOVAPLAS is a 20 year old company specializing in the manufacture of steps and ladders for the pool industry where they are recognized as an industry leader.

FOR MORE THAN A DECADE Lumi-O Innovaplas has expanded these leadership qualities and production capabilities into the production of superior designed and fabricated hot tubs.

At Lumi-O Innovaplas we don't just make Hot Tubs, we C.A.R.E about how we make them and the satisfaction they bring to our users.

WE C: Beyond the **creativity** of our designs, every PÜR SPA is extremely **comfortable**.

A: PÜR SPAS are **affordable**, built for budget minded consumers. They have Great Features, Great Quality and have Exceptional "value"

R: **Reliability** is a critical component of a PÜR SPA; we use only the best suppliers and raw materials and every hot tub we make goes through a rigorous inspection and conformity process.

E: The **Energy Efficiency** of a PUR will leave you smiling. The cost to operate is merely pennies a day.

Because the sense of touch can transmit positive vibrations and pleasant feelings, we added elevated protrusions to the armrests of the "Feel It" Station seat.

Not only will you enjoy your hydro therapy massage, but you'll also experience a pleasant feeling in the palms of your hands as you rub them back and forth over the massage area.

SPARTAN SPAS

Feeling

HAVE THE MOST STANDARD FEATURES OF ANY ENTRY LEVEL HOT TUB

Lighting Ambience

Waterfall LED back lighting, an LED main light and LED sconce or exterior panel lighting all work in unison to provide a color show that you select, personally.

Waterfall Ambience

The only thing more soothing than the sound of water gently cascading is when the waterfall has multi colored, LED back lighting to add brilliance to the water. You can set the speed at which the water cascades and the color or colors of the LED lighting to your preference.

100% Serviceability

With access panels on all four sides and insulation that is removeable and reusable, you have access to 100% of the spa's jets, plumbing and equipment. Repairs are simple and inexpensive.

Practical Insulation

The inner cabinet walls, floor to top rail are extremely well insulated with Thermofoil™ covering. If you need to do a repair, the insulation can be pulled back for access and it is easily put back in place.

No Hassle Placement

Pür Spas are a one-piece hot tub with a totally protected bottom. No rotting. No rodent infestation and other than being solid and level, no special site preparation is required.

Plug & Play

Standard 15A, 120V GFCI protected cord that is ready to be plugged into a dedicated standard wall receptacle. It can also be converted to 240V operation for better heating efficiency.

It's as *easy* as one, two, three

Place**

Fill

Plug 120V
(convertible 240V)*

BUILT TO LAST A LIFETIME

- Virtually indestructible
